

GS Caltex

**“Opening the gates to a brighter future
as a proud leader in energy.”**

I am your Energy, GS Caltex

Energy has been mankind's constant companion and will continue to be crucial in the future.

As Korea's leading energy company based on the success of petroleum, petrochemical and lubricant businesses, **GS Caltex** has always been at the heart of the energy industry.

GS Caltex will continue to strengthen its competitiveness to become a global energy leader.

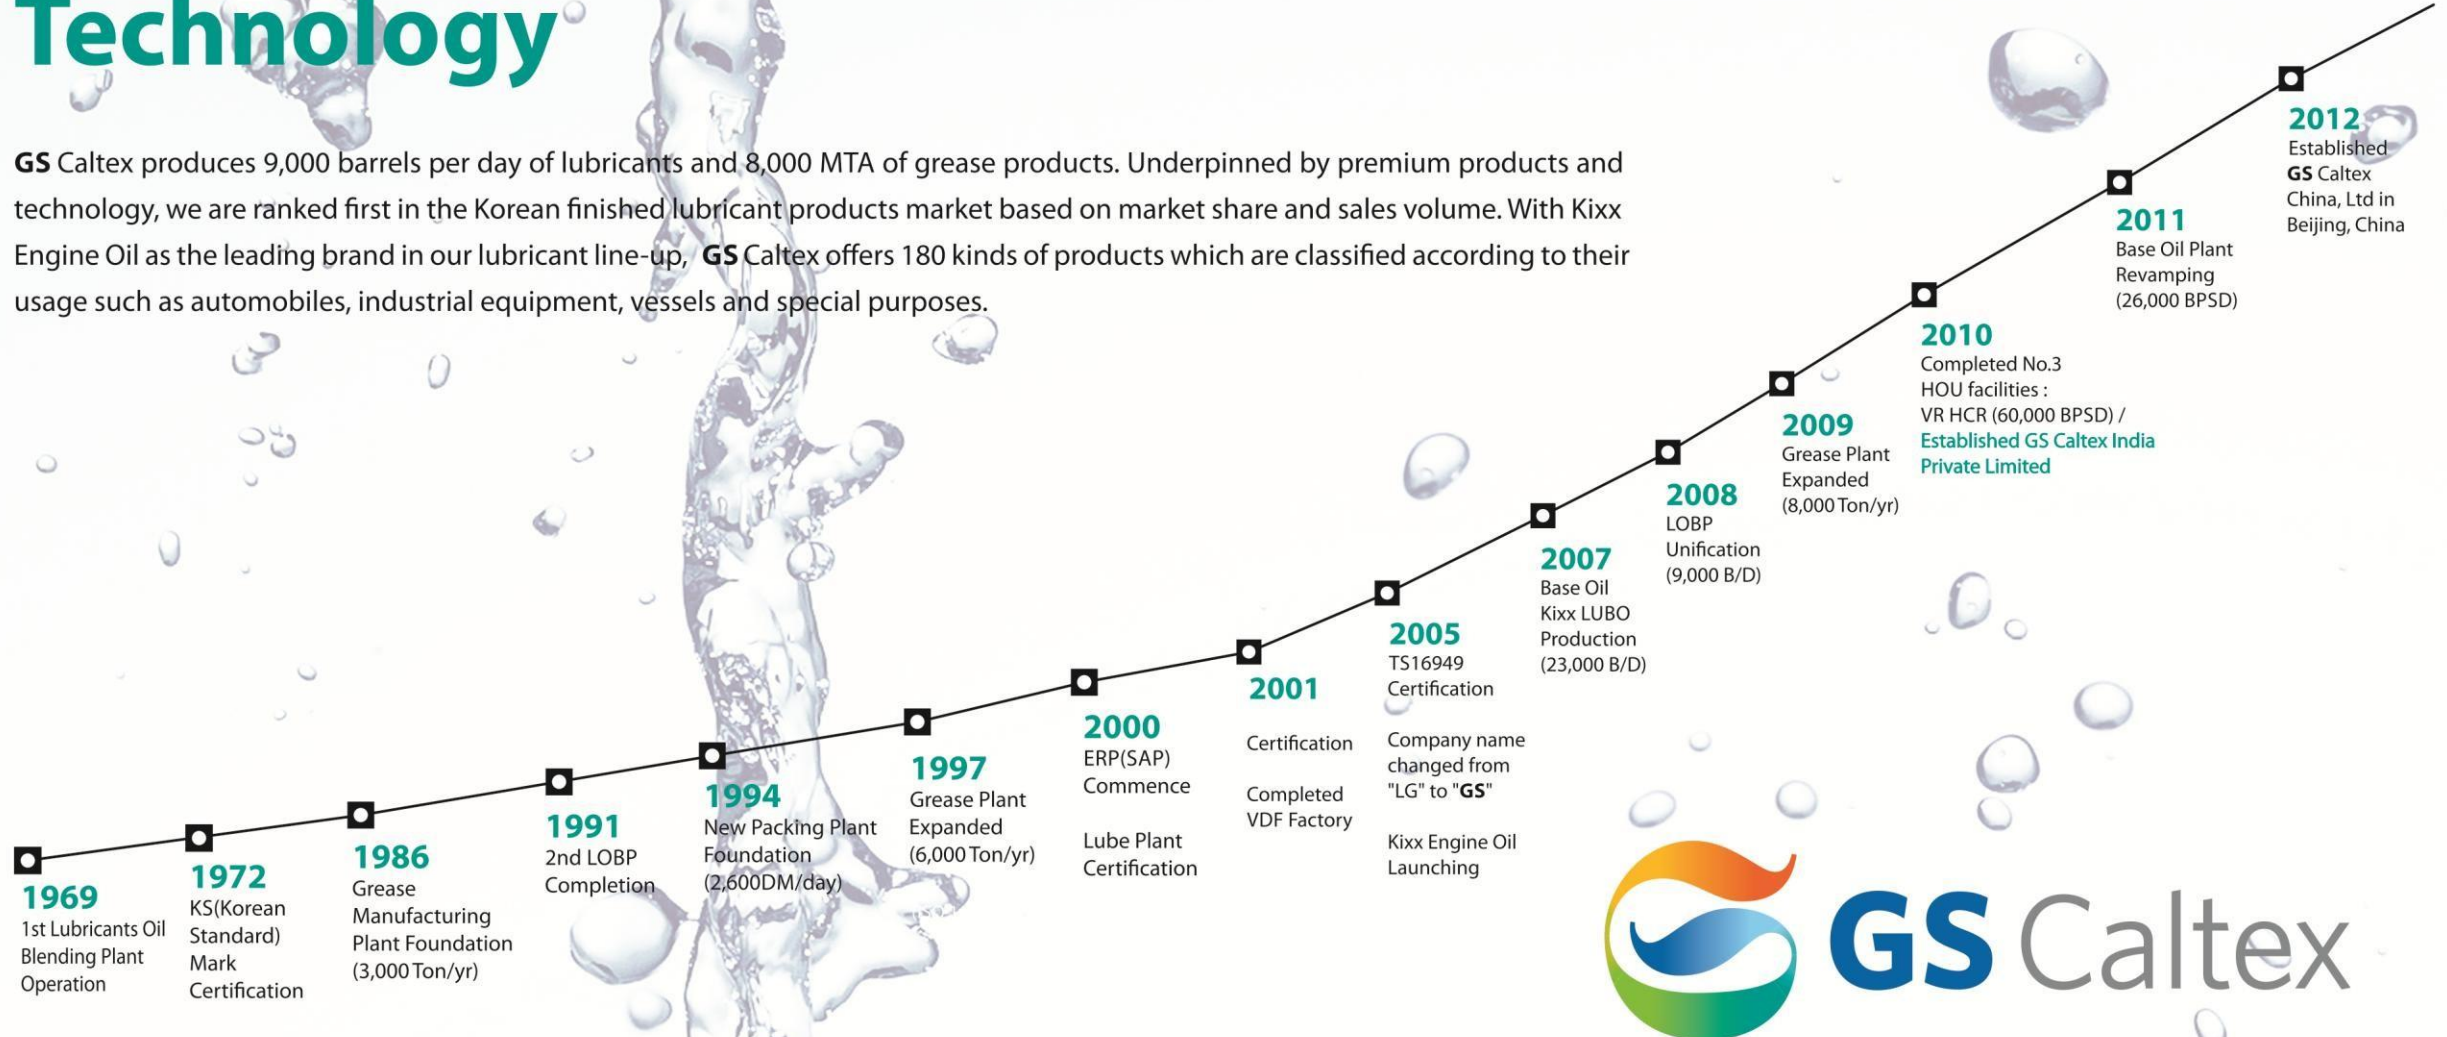

GS Caltex, founded in 1967 as the first private oil refining company in Korea, has led the nation's energy industry through constant innovation and creative initiatives. GS Caltex will continue to do its utmost to become "Value No.1 Energy & Chemical Partner"

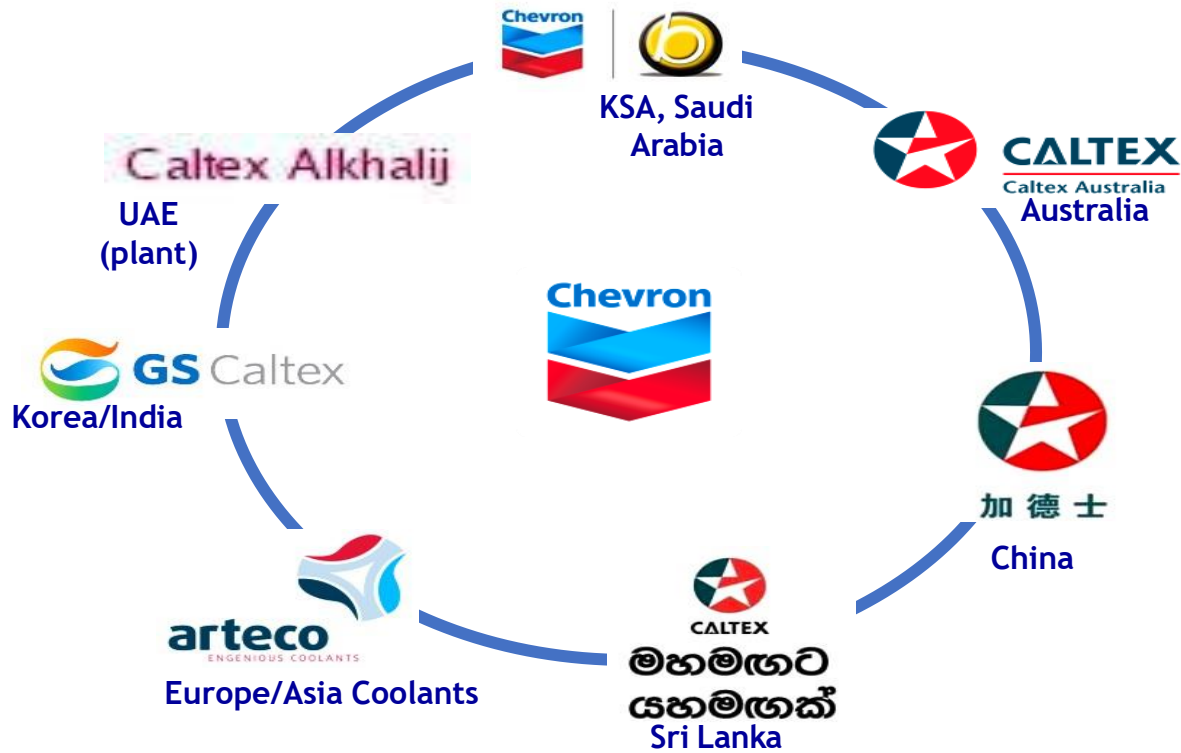

Premium Lubricants Products And Technology

GS Caltex produces 9,000 barrels per day of lubricants and 8,000 MTA of grease products. Underpinned by premium products and technology, we are ranked first in the Korean finished lubricant products market based on market share and sales volume. With Kixx Engine Oil as the leading brand in our lubricant line-up, GS Caltex offers 180 kinds of products which are classified according to their usage such as automobiles, industrial equipment, vessels and special purposes.
